

AVVOLGIBILI

AVVOLGIBILI IN PVC

TECNICA 48

L'avvolgibile in TECNICA 48 è realizzata con stecche auto-aggancianti a doppia parete con intersezioni di irrigidimento. Il profilo presenta una sezione piatta all'esterno pensata in modo da scongiurare il possibile collassamento dell'avvolgibile in alcuni punti dovuti all'esposizione solare. La parte interna, viene mantenuta bombata consentendo all'avvolgibile di mantenere ingombri ridottissimi.Viene fabbricata con materia prima di altissima qualità.
Vengono effettuati direttamente in linee di produzione: bloccaggio stecca, fori di areazione perfettamente allineati e l'assemblaggio del telo risulta sempre uniforme.
Si consiglia per colori particolari un rinforzo in acciaio ad H
Fabbricata secondo normativa UNI EN 13659:2009
